

Dear John

I am writing to let you know how impressed I have been with the long-lasting effect you had on my students regarding computer and internet safety. Your message to the girls was simple to understand and hard-hitting with the facts. You spoke to the students in a way they can understand and answered questions very thoroughly.

I liked the way you were patient when the students asked questions about things we had already discussed. They felt safe to ask again and again until they understood the message you were bringing to them.

The first move many of them made when they got home was to close down their contacts base on face-book to only the people they know. Some reported to me that they were teaching their parents things. I hope we get the opportunity to have your course again at our school.

Kind regards
